

Maitsys Access Guardian

AI-Powered SAP Firefighter Access Governance Platform

Solution Overview

Maitsys Access Guardian helps organizations manage SAP emergency access, audit monitoring, compliance reporting, and risk governance through AI-powered automation and intelligent operational insights.

Key Features

Core Capability	Value Delivered
AI Chatbot Assistance	Automates firefighter requests and approval support
AI Risk Analysis	Identifies suspicious activities and high-risk behavior
Audit Monitoring	Provides centralized audit logs and compliance visibility
Real-Time Governance	Tracks privileged SAP access and session activities
Compliance Reporting	Generates audit-ready governance reports and insights

Business Benefits

- Strengthen SAP privileged access governance
- Improve audit readiness and compliance visibility
- Reduce operational risks with AI-driven insights
- Automate firefighter approvals and monitoring
- Accelerate security investigations and reporting
